Why do I care?

First and only opportunity to invest in Real Estate development for the average investor.

You control and decide which projects you invest in (stake to).

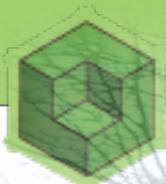

You earn passive income in the form of revenue share after project completion. (Most projects are a two-year time table but that will be clearly spelled out before you decide to stake.)

You vote on which charity receives 5% of total revenue contribution.

Earn revenue in stable coins to avoid market fluctuation and decide to reinvest or cash out.

Complete liquidity with CurveBlock Exchange.

114+ years of combined Real Estate and development experience on the team.
